

About Breezy BioPure™

GREEN & SUSTAINABLE

BioPure is a non-toxic, non-corrosive solution made from 7% hydrogen peroxide and 93% ultra-pure water. When fogged, it disinfects the entire space and rapidly breaks down into water and oxygen.

RESIDUE-FREE

When dispersed as a dry fog, BioPure™ leaves no residue and is safe around electronics, papers, and a wide range of materials.

FOOD-SAFE

BioPure helps maintain a hygienic environment without harsh chemicals. Suitable for use on food preparation surfaces.

EPA SAFER CHEMICAL INGREDIENTS LIST

BioPure uses ingredients included on the EPA Safer Chemical Ingredients List, reflecting a focus on safer, more sustainable chemistry.
